GENERAL INFORMATION:

GENERAL INFORMATION:

APPLICANT: La Rosa Thomas J

APPLICANT: Zou Yihua

APPLICANT: Cao Yongwei

TITLE OF INVENTION: Son Nucleic Acid Molecules and Other Molecules Associated With

TITLE OF INVENTION: Plants and Uses Thereof for Plant Improvement

FILE REFERENCE: 38-21(5323)B

CURRENT APPLICATION NUMBER: US/10/424,599

CURRENT APPLICATION NUMBER: 2003-04-28

NUMBER OF SEG ID NOS: 285684

Glutelin 2 precursor (clone pME119) - maize

Sipterial and precursor (clone pME119) - maize

NyAlternate names: 27K zein; alcohol-soluble reduced glutelin; Zc2 protein

NyAlternate names: 27K zein; alcohol-soluble reduced glutelin; Zc2 protein

C;Species Zea mays (maize)

C;Species: 30-Jun-1988 #sequence revision 30-Jun-1988 #text_change 09-Jul-2004

C;Accession: A93557; A29017; $212144; A23014

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                셤
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     homeotic protein Hox D4 - chicken
NyAlternate names: homeotic protein Chox-4.2; homeotic protein Chox-a
C;Species: Gallus gallus (chicken)
C;Date: 29-Jan-1993 #sequence_revision 29-Jan-1993 #text_change 24-Jul-1997
C;Accession: S09256
